

Sample bug tickets for the MrBuggy7 app

Application version: 1.0.0.1

Priority: High

Environment:

PC Computer

- Processor: i5 2.4 GHz
- RAM: 16 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

A regular user can freely edit a CR regardless of its "Approved" status. According to the specification, CRs with "Approved" status should not be editable by regular users.

Prerequisites:

- A CR with "Approved" status has been created

Steps to reproduce:

1. Open the MrBuggy7 application
2. Log in as a regular user
3. Click on "CRs"
4. Click "Edit" in the Actions section
5. Make any changes
6. Click "Save"

Actual result:

The changes are applied, and the regular user can freely edit CRs, regardless of the "Approved" status.

Expected result:

According to the specification, CRs with "Approved" status should not be editable by regular users. Such permissions should only be available to an administrator account.

Title: Regular users can delete CRs with a status other than "Draft"

Application version: 1.0.0.1

Priority: High

Environment:

PC Computer

- Processor: i5 2.4 GHz
- RAM: 16 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

A regular user can delete CRs with a status other than "Draft." According to the specification, CRs with a status other than "Draft" should not be deletable by regular users.

Prerequisites:

- A CR with a status other than "Draft" has been created

Steps to reproduce:

1. Open the MrBuggy7 application
2. Log in as a regular user
3. Click on "CRs"
4. Click "Delete" in the Actions section
5. Click "Yes" in the pop-up window

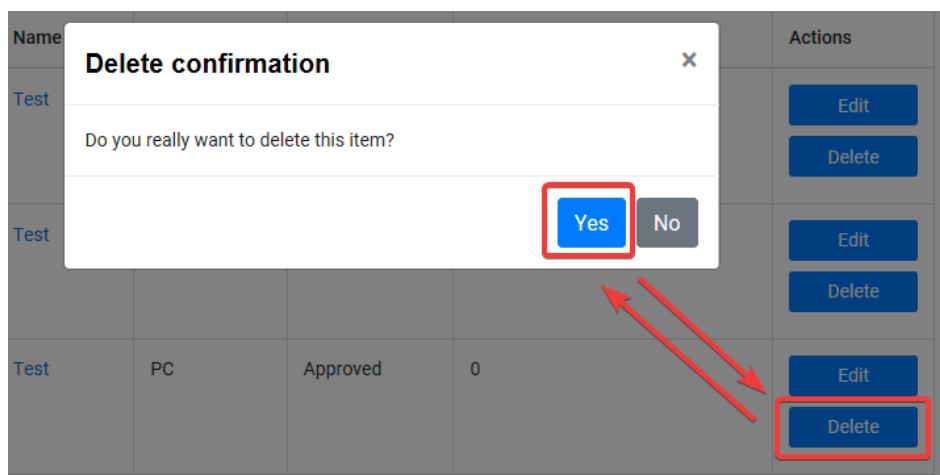

Actual result:

The selected CR is completely deleted from the CR list.

Expected result:

According to the specification, CRs with a status other than "Draft" should not be deletable by regular users. Such permissions should only be available to an administrator account.

Title: Administrator cannot create a new CR

Application version: 1.0.0.1

Priority: Medium

Environment:

PC Computer

- Processor: i5 2.4 GHz
- RAM: 16 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

The administrator account cannot create a new CR. According to the specification, this operation should be possible.

Prerequisites:

- None

Steps to reproduce:

1. Open the MrBuggy7 application
2. Log in as an administrator
3. Click on "CRs"

Actual result:

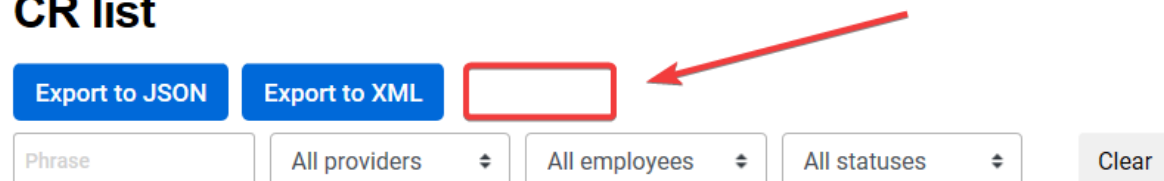

From the administrator profile, there is no option to create a new CR.

Expected result:

According to the specification, the administrator should have access to a button in the "CR list" tab that allows creating a new CR.

Attachments:

CR list

The screenshot shows the 'CR list' interface. At the top, there are two blue buttons: 'Export to JSON' and 'Export to XML'. To the right of these buttons is a red rectangular box, which is highlighted by a red arrow pointing from the right. Below the buttons, there is a search bar with the placeholder text 'Phrase'. To the right of the search bar are three dropdown menus: 'All providers', 'All employees', and 'All statuses'. To the right of these dropdowns is a 'Clear' button.

Title: The "END" checkbox in the CR edit tab does not save its state

Application version: 1.0.0.1

Priority: Low

Environment:

PC Computer

- Processor: i5 2.4 GHz
- RAM: 16 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

In the CR edit tab, the "END" checkbox does not save the state selected by the user. No matter how many times it is checked, it will always be unchecked when the tab is reopened.

Prerequisites:

- At least one CR with the status "New" or "Draft" has been created

Steps to reproduce:

1. Open the MrBuggy7 application
2. Log in to any account
3. Click on "CRs"
4. Click "Edit" for a given CR
5. Check the "END" checkbox
6. Click "Save"
7. Click "Edit" for the same CR again

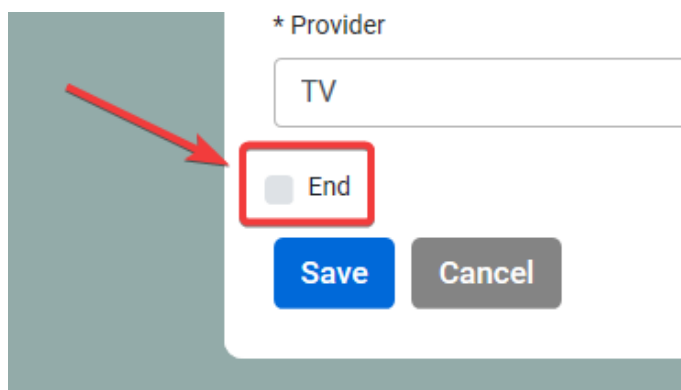

Actual result:

The checkbox will be unchecked, regardless of how many times the same operation is repeated.

Expected result:

The state of the checkbox should be dependent on what the user set after clicking "Save".

Attachments:

Title: Unable to add comments to CRs with "New" and "Draft" statuses

Application version: 1.0.0.1

Priority: Medium

Environment:

PC Computer

- Processor: i5 2.4 GHz
- RAM: 16 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

Neither the administrator nor the regular user can add comments to CRs with the "New" and "Draft" statuses. According to the specification, commenting should be possible regardless of the CR status.

Prerequisites:

- At least one CR with the status "New" or "Draft" has been created

Steps to reproduce:

1. Open the MrBuggy7 application
2. Log in to any account
3. Click on "CRs"
4. Click on the name of the selected CR from the list
5. Scroll down to the comments section

Actual result:

Regardless of whether logged in as an administrator or a regular user, only the section name is visible, with no option to submit a comment. The functionality to post comments on CRs with "New" or "Draft" statuses has not been implemented.

Expected result:

Commenting on CRs should be possible for all users, regardless of the CR status.

Sample bug tickets for the skleptest.pl website

Title: Buttons Responsible for Scrolling the Product List Are Not Working

Priority: Medium

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

The buttons responsible for scrolling the product list in the "All Black Tops" section are not working, and the product list does not respond to user commands.

Prerequisites:

- None

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Click the buttons responsible for scrolling the product list in the "All Black Tops" product section

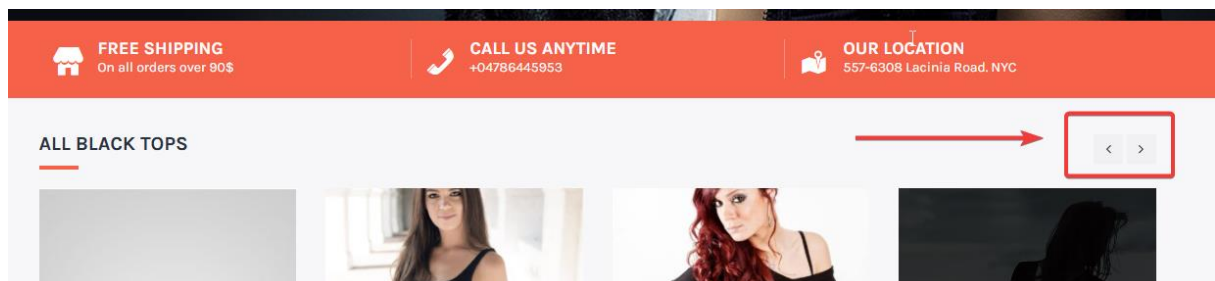

Actual Result:

The product list does not respond to user commands, and the buttons do not work. The issue occurs regardless of the web browser.

Expected Result:

The products should scroll smoothly and seamlessly in the direction chosen by the user.

Title: "Shop Now" Button on the Homepage Does Not Work Correctly

Priority: High

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

After clicking the "Shop Now" button on the homepage, the user is redirected to a page with a message that the website is unavailable. The button links to an incorrect URL.

Prerequisites:

- None

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Click the "Shop Now" button

Actual Result:

The user is redirected to a page with the incorrect URL <http://./product-category/most-wanted/> and receives a message stating that the site is unavailable. The issue occurs regardless of the web browser.

Expected Result:

The user should be redirected to the "Most Wanted" section at the URL <https://skleptest.pl/product-category/most-wanted/>.

Title: Yellow Empty Box Under Incorrectly Filled Contact Form

Priority: Medium

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

When attempting to submit the contact form without filling in at least one of the required fields, an empty yellow box appears below the form without any validation message.

Prerequisites:

- At least one of the required contact form fields is empty

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Navigate to the "Contact" tab
3. Click the "Send" button below the contact form

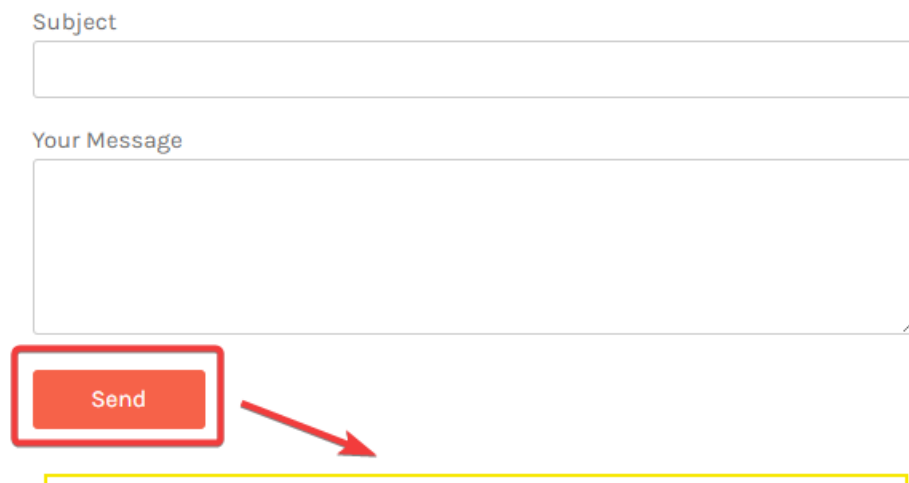

Actual Result:

An empty yellow box appears below the contact form without any validation message. The issue occurs regardless of the web browser.

Expected Result:

When attempting to submit the form without filling in the required fields, the user should receive a clear and specific message indicating what needs to be corrected, and no unnecessary elements should appear.

Attachments:

The screenshot shows a contact form with two input fields: "Subject" and "Your Message". Below the "Your Message" field is a red "Send" button. A red arrow points from the "Send" button to a yellow rectangular box at the bottom of the form, which represents the error message. The "Subject" field is empty, and the "Your Message" field is also empty.

Title: Map with Location Is Not Displaying Correctly

Priority: Medium

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

After navigating to the contact page, instead of the Google map displaying the store's location, only the URL appears, and the map element is not shown.

Prerequisites:

- None

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Navigate to the "Contact" tab

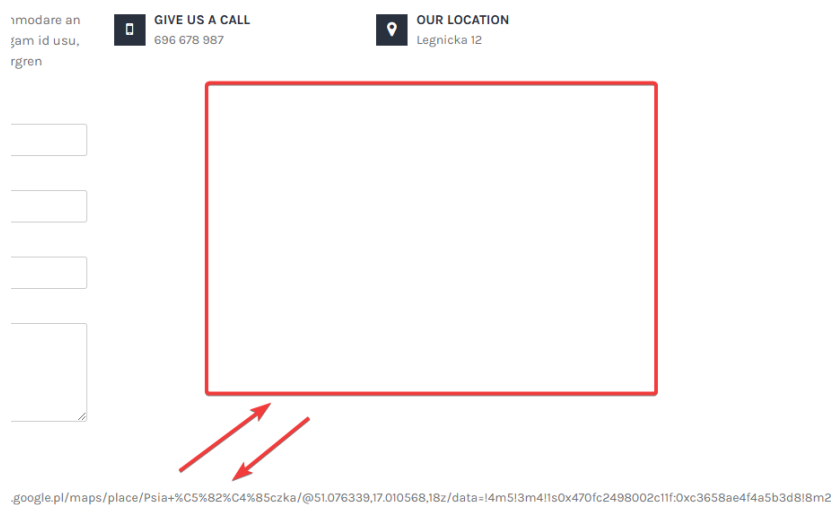

Actual Result:

The map does not display on the contact page. Instead, the user sees only the URL of the map element. The issue occurs every time, regardless of page refresh or web browser.

Expected Result:

On the right side of the contact form, a Google map should be displayed, showing the store's address.

Title: PayPal Payment Method Is Not Working Correctly

Priority: High

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

When attempting to pay via PayPal, the user receives an error message: "PayPal error (2)."

Prerequisites:

- At least one product added to the shopping cart

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Go to the shopping cart page by clicking "My Cart" in the top navigation
3. Click "Checkout with PayPal"

Actual Result:

The following error message is displayed: "PayPal error (2): An error (2) occurred while processing your PayPal payment. Please contact the store owner for assistance." The issue occurs every time, regardless of the web browser.

Expected Result:

The PayPal payment method should allow the user to make a seamless payment for the order.

Attachments:

CART

PayPal error (2): An error (2) occurred while processing your PayPal payment. Please contact the store owner for assistance.					
		Product	Price	Quantity	Subtotal
		Beije Magawi Shoes	30,00 zł	- 8 +	240,00 zł

Title: Two Different Tabs in the Navigation Bar Direct to the Same URL

Priority: High

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

The "About Us" and "Contact" tabs in the navigation bar direct to the same URL and are both displayed as active simultaneously.

Prerequisites:

- None

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Navigate to the "About Us" or "Contact" tab in the navigation bar

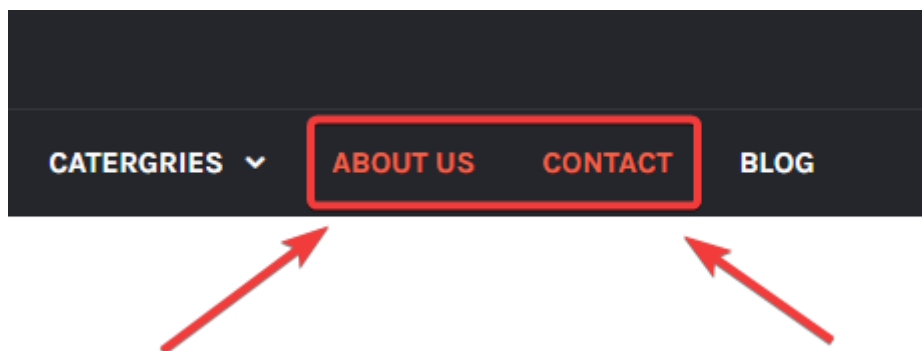

Actual Result:

Both tabs direct to the same URL and are marked as active at the same time. The issue occurs every time, regardless of the web browser.

Expected Result:

The tabs should lead to separate URLs and be marked as active only when the user is currently on that particular page.

Title: "Buy Now" Button in Promotional Offers Is Not Working Correctly

Priority: High

Environment:

PC Computer

- Processor: i7 3.7 GHz
- RAM: 32 GB
- Operating System: Windows 11
- Network: Wi-Fi

Description:

The "Buy Now" button in promotional offers is not working correctly. After clicking the button on any of the promotional offer tiles, the user is redirected to a page with the message "Oops! That page can't be found."

Prerequisites:

- None

Steps to Reproduce:

1. Open the website <https://skleptest.pl/>
2. Scroll down the page to the product listings
3. Click the "Buy Now" button on any of the promotional offer tiles (e.g., offers up to 50% off)

Actual Result:

The user is redirected to a page with the message: "Oops! That page can't be found." This issue occurs on every tile, regardless of the web browser.

Expected Result:

The user should be redirected to a page with products at promotional prices in the selected category, matching the offer displayed on the tile.
